## ANNUAL SECURITY REPORT (ASR) AND FIRE SAFETY REPORT (FSR)

### Preparation of the Annual Security and Fire Safety Report and Disclosure of Crime Statistics

College of Southern Idaho publishes this Report to inform the College community about campus security policies and initiatives to prevent and respond to crime and emergencies, and the occurrence of crime on campus. This Report complies with the *Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act* and uses information maintained by the Campus Safety Department, as well as information provided by other College offices such as Student Affairs, Residence Life, Office of Student Conduct, and information provided by Campus Security Authorities, Twin Falls Police Department and other law enforcement agencies. Each of these entities provides updated policy information and/or crime data.

The information regarding CSI policies and procedures contained in this Annual Security and Fire Safety Report refers to all campus locations unless otherwise stated, including CSIs main campus in Twin Falls and CSI's satellite campuses or centers in Burley, Gooding, Hailey, and Jerome, as defined by Clery Act regulations. This document's Fire Safety Report section contains information about fire safety policies and procedures in on-campus student housing facilities on the Twin Falls campus and statistics for any fires occurring in those facilities.

This Report provides statistics for the previous three years concerning reported crimes that occurred on campus, in certain off-campus buildings, and on property owned, leased, or controlled by College of Southern Idaho. This Report also includes institutional policies concerning campus security, such as policies regarding sexual assault, alcohol, and other drugs. By October 1<sup>st</sup> of each year, the College distributes a notice of the availability of this Annual Security Report to every member of the College community. Anyone, including prospective students and employees, may obtain a paper copy of this Report by contacting Campus Safety at **208-732-6605** or by visiting the following website: <https://www.csi.edu/security/crime-statistics/default.aspx>.

### HISTORY AND MISSION OF COLLEGE OF SOUTHERN IDAHO

CSI represents a shared vision and a collaborative effort with the citizens of Magic Valley. This vision began to take form as early as 1952 when a Stanford doctoral student wrote his dissertation, "A Junior College Survey of Twin Falls County, Idaho." Several years later (1960), Twin Falls Chamber of Commerce established a junior college committee to actively pursue financial support to make this vision a reality.

At the same time, classes began in Buhl under a private and unrelated institution called Southern Idaho College. An inadequate tax base caused the Board of Education to discontinue the effort, although many of the individuals involved later helped develop CSI.

Two years later, the Federal Government facilitated College of Southern Idaho's development by providing federal aid for building academic facilities. In 1963, Idaho legislature passed the Junior College Act, which provided for the establishment of junior college districts. Twin Falls County voted to form a junior college district in November, 1964. Also, in 1964, Jerome County citizens voted to join the junior college district. Then Governor, Robert Smylie, appointed the first CSI Board of Trustees that same year. They held their first meeting in January, 1965 in which Dr. James L. Taylor was hired as the first President of CSI. 'Doc' Taylor served as President until his death in November, 1982.

The first evening academic classes were held at Twin Falls High School in Fall of 1965, while vocational classes were held at a large building on Kimberly Road. The administrative offices were housed in the old hospital annex building on West Addison. Ground was broken for the first building on campus – the Fine Arts Building - in August, 1967.

Gerald Meyerhoeffer served as President after until his retirement in 2005. Dr. Gerald Beck became CSI's President in 2005 and served until his retirement in 2013. The Board appointed Curtis Eaton, former Executive Director of the CSI Foundation, to be the Interim President while a nationwide search was conducted for a new President. Ultimately, the Board selected Dr. Beck's Executive Vice President, Dr. Jeff Fox, who assumed the presidency in January, 2014. Dr. Fox retired from CSI in May, 2020 and Dr. Dean Fisher assumed presidency of CSI as of June, 2020.

We urge members of the college community to use this Annual Report as a guide for safe practices on and off campus. CSI's Campus Safety Department generates an email to currently enrolled students as well as current employees on an annual basis notifying them that the Report is available to be viewed. For prospective students, members of the community and others, the Annual Security & Fire Report is available online at <https://www.csi.edu/security/crime-statistics/default.aspx>. Copies of the Report can be obtained from the CSI Campus Safety Department in the McManaman Building, 315 Falls Avenue, Twin Falls, Idaho, 83301. You may request to have a copy mailed to you by calling **(208) 732-6605**.

## LETTER FROM THE PRESIDENT

Dear College of Southern Idaho Community Member:

As members of the CSI community, each of us assumes the obligation of compliance with all policies and campus regulations. A part of those campus policies and regulations is the annual communication of the College of Southern Idaho Security and Fire Safety Report, which I am pleased to provide herewith.

This Report is prepared by a comprehensive team representing various campus sectors and reflects the cooperative efforts of campus stakeholders to promote a safe environment. Not only does this Report comply with the *Jeanne Clery Disclosure of Campus Policy and Campus Crime Statistics Act*, it is part of our continuing effort to inform you of the safety programs and services available and the steps you can take to maintain your safety and the security of others. The safety and well-being of our students, faculty, staff, and visitors are of the utmost importance to the College of Southern Idaho.

The best protections against campus crime are a well-trained Campus Safety team and strong relationships with law enforcement; an aware, informed, alert campus community; and a commitment to a proactive culture of crime prevention. The College invests both personnel and substantial resources in order to keep the campus one of the safest in the region and to comply with all federal regulations and laws.

While College of Southern Idaho works hard to provide a higher level of safety, the best defense against crimes and accidents is to be informed and educated on personal safety, be aware of your surroundings, and report suspicious activity to proper authorities. The principal focus of our work is education and with that we strive to ensure students, faculty, and staff educate themselves about personal safety and the safety of those around them. I hope you will join me in keeping the College a safe and welcoming environment.

Best,

Dr. L. Dean Fisher  
President

## **CSI CAMPUS SAFETY DEPARTMENT**

CSI's Campus Safety Department is responsible for providing safety, security, and emergency management services for College of Southern Idaho. The Campus Safety Office is in the McManaman Building on CSI's Twin Falls campus. The Department is led by a Director of Campus Safety who oversees (1) Administrative Assistant, (1) Lead Officer, (5) full-time uniformed Officers and (6) part-time uniformed Officers. Campus Safety Officers patrol the main campus in vehicles, on foot, bicycles and other motorized vehicles.

Campus Safety Department is a non-sworn department. CSI's Campus Safety Officers have no powers of arrest. However, they work closely with the Twin Falls Police Department, Twin Falls County Sheriff's Office, and other local, state and federal law enforcement agencies for investigations, information sharing and training. Training subjects may include criminal law, civil law, public relations, cultural/diversity relations, interpersonal communication, crisis intervention, critical incident response, and all facets of protection of persons and property. All Campus Safety Officers are certified in standard first aid and CPR/AED.

### **Safety, Our Number One Priority**

The College takes great pride in the community and offers many advantages for students, faculty, and staff. This community is a great place to live, learn, work, and study. However, this does not mean that the campus community is immune from similar problems that arise in other communities. With that in mind, CSI has taken progressive measures to create and maintain a safe and secure environment on campus.

Though the College is progressive with its policies, programs, and education, it is up to each of us to live with a sense of awareness and use reasonable judgment when living, working, or visiting the campus.

### **Working Relationships with Other Law Enforcement Agencies**

As stated above, our Campus Safety Department maintains a close working relationship with Twin Falls Police Department ("TFPD"), Twin Falls County Sheriff's Office ("TFCSO") and Idaho State Police ("ISP"). Meetings are held with these agencies on both a formal and informal basis when necessary. Campus Safety Officers and TFPD are encouraged to communicate regularly on the scene of incidents that occur in and around the campus area. The Director of Campus Safety works closely with TFPD when incidents arise that require joint investigative efforts, resources, crime related reports and exchanges of information. There is no written memorandum of understanding between CSI Campus Safety and Twin Falls Police Department.

## REPORTING CRIMES AND OTHER EMERGENCIES

CSI has several ways for campus community members and visitors to report crimes, serious incidents, and other emergencies to appropriate CSI officials and/or law enforcement. It is critical for the safety of the entire CSI community that you immediately and accurately report all incidents so that Campus Safety can investigate the situation and determine if follow-up actions are required, including issuing a Timely Warning or emergency notification.

### Official(s)

<i>Campus Safety CSI Main Campus, McManaman Building</i>	<i>(208) 732-6605</i>
<i>Title IX Coordinator CSI Main Campus, Taylor Building</i>	<i>(208) 732-6225</i>
<i>Student Services Office CSI Main Campus, Taylor Building</i>	<i>(208) 732-6225</i>
<i>Office of Human Resources, Taylor Building</i>	<i>(208) 732-6267</i>

### Voluntary, Confidential Reporting

Little can be done to help prevent other members of the community from also being victimized if crimes go unreported. We encourage CSI community members to report crimes and to participate in, and support, crime prevention efforts. CSI encourages community members to report crimes when the victim is unable to make the report.

If you are the victim of a crime or want to report a crime you are aware of, but do not want to pursue action within the college or criminal justice system, we ask that you consider filing a voluntary, confidential report. Depending upon the circumstances of the crime you are reporting, you may be able to file a report while maintaining your confidentiality. The purpose of a confidential report is to comply with your wish to keep your personally identifying information confidential, while taking steps to ensure your safety and the safety of others. Confidential reports allow CSI to compile accurate records on the number and types of incidents that occur on campus. Reports are counted and disclosed in the Annual Security Report and Annual Fire Safety Report. In limited circumstances, CSI may not be able to assure confidentiality but will inform you in those cases.

### Reporting to the College of Southern Idaho Campus Safety Department

CSI encourages all campus community members to promptly report all crimes and other emergencies directly to the Campus Safety Department in a timely manner. Campus Safety has a call-taker that is available by phone at 208-732-6605 or in person 8:00 a.m. to 5:00 p.m., Monday through Friday, at the McManaman Building. After hours and on weekends, you can contact Campus Safety at 208-732-6605 (or extension 6605) and a Campus Safety Officer will assist you. Although many resources are available, Campus Safety strongly encourages all crimes be reported, whether or not an investigation ensues, to assure CSI can assess any and all security concerns and inform the community if there is a significant threat to the CSI community.

### Anonymously

CSI's online reporting can be submitted anonymously. Campus Safety will not attempt to trace the origin of the person submitting the form unless it is deemed necessary for safety purposes. That website is: <https://cm.maxient.com/reportingform.php?CollegeofSouthernID>.

### Emergency Phones

The Campus Safety Department has an emergency/afterhours phone located on the north wall of the McManaman Building for afterhours contact with Campus Safety.

**Reporting to Campus Security Authorities**

While CSI encourages all campus community members to promptly report all crimes and other emergencies directly to the Campus Safety Department at **208-732-6605** or to **911**, we also recognize that some may prefer to report to other individuals or CSI Administrative Offices. The *Clery Act* recognizes certain CSI officials and offices as “Campus Security Authorities” (CSAs). The *Act* defines these individuals, among other individuals, as “an official of an institution who has significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline, athletics, and campus judicial proceedings. An official is defined as a person who has the authority and the duty to take action or respond to particular issues on behalf of the institution.” CSAs must report the following distinct categories of crimes:

**Clery Crimes**

- Criminal Homicide.
- Sex Offenses<sup>1</sup>
- Robbery
- Aggravated Assault
- Burglary
- Motor Vehicle Theft
- Arson

CSAs must report arrests and referrals for disciplinary action for alleged violations of state law (not just violations of campus policy) for the following:

- Liquor law violations
- Drug law violations
- Illegal weapon possession.

CSAs must report hate crimes (crimes based on bias related to a person being in one of the following protected group categories):

- Race
- Gender
- Religion
- Sexual Orientation
- Ethnicity/National Origin
- Disability

CSI officially designates the following offices as places where campus community members should report crimes:

<b>Officials</b>	<b>Location</b>	<b>Phone Number</b>
<b>Campus Safety</b>	<b>McManaman Building</b>	<b>(208) 732-6605</b>
<b>Student Affairs</b>	<b>Taylor Building</b>	<b>(208) 732-6225</b>
<b>Human Resources</b>	<b>Taylor Building</b>	<b>(208) 732-6267</b>

---

<sup>1</sup>Sex offenses include unwanted fondling, rape, incest, statutory rape, domestic violence, dating violence and stalking.

### Pastoral and Professional Mental Health Counselors

According to the *Clery Act*, pastoral and professional mental health counselors who are appropriately credentialed and hired by CSI to serve exclusively in a counseling role are not considered CSAs. As a matter of policy, CSI encourages pastoral and professional mental health counselors to notify those whom they are counseling of the voluntary, confidential reporting options available to them.

### TIMELY WARNING REPORTS

In an effort to provide timely notice to the campus community in the event of a *Clery Act* Crime that may pose a serious or ongoing threat to members of the community, Campus Safety may issue a “Timely Warning.” CSI has partnered with Rave Mobile Safety in order to deliver critical information when needed. Campus Safety will send messages related to emergencies via **Rave Alert** which can be received as a text message, a voice message, and/or an email<sup>2</sup>. Other transmission modalities can also be utilized if individuals register their numbers at <http://www.csi.edu/alert>.

CSI may issue a Timely Warning for the following *Clery* crimes:

- Criminal Homicide.
- Sex Offenses<sup>3</sup>
- Robbery
- Aggravated Assault
- Burglary
- Motor Vehicle Theft
- Arson

CSI may also issue a Timely Warning for alcohol, drug, and weapon arrests or referrals that may cause a continuing threat to the community.

The purpose of a Timely Warning is to notify the college community of the incident and to provide information that may enable the community to take steps to protect themselves from similar incidents. CSI will issue Timely Warnings on a case-by-case basis by considering the following criteria: **(1)** one of the above listed crimes are reported; **(2)** the perpetrator has not been apprehended; and **(3)** there is a substantial risk to the safety of other members of the campus community because of this crime.

An institution is not required to provide a Timely Warning with respect to crimes reported to a pastoral or professional counselor. CSI may also issue an alert in other circumstances, which may pose a significant threat to the college community. At College of Southern Idaho, the Director of Campus Safety will generally make the determination, in consultation with other CSI offices, if a Timely Warning is required. However, in emergency situations, any Campus Safety supervisor may authorize a Timely Warning. For incidents involving off-campus crimes, CSI may issue a Timely Warning if the crime occurred in a location used and frequented by the college community.

<sup>3</sup>Sex offenses include unwanted fondling, rape, incest, statutory rape, domestic violence, dating violence and stalking.

## SECURITY OF AND ACCESS TO THE COLLEGE OF SOUTHERN IDAHO FACILITIES

### College of Southern Idaho Twin Falls Campus

At College of Sothern Idaho's main campus, administrative buildings are open from 8:00 a.m. until 5:00 p.m., Monday through Friday. Academic buildings generally are open from 7:00 a.m. until 10:00 p.m. Academic buildings are scheduled to be open on weekends, as needed. Access to individual classrooms and laboratories is limited to those enrolled in the courses meeting there. Likewise, access to most programs is limited to those enrolled in the program or those otherwise with authorized access.

Many cultural and athletic events held on CSI facilities open to the public. Likewise, other facilities, such as the Bookstore, Library, and Student Union Building are open to the public.

### Special Considerations for Residence Hall Access

At CSI, all residence halls are staffed twenty-four (24) hours a day and operate under an individual hard key system, with exterior doors being equipped with locks and crash bars to ensure a quick emergency exit. All exterior doors are locked twenty-four (24) hours a day. Only students who are residents in a particular hall/apartment are authorized entry to that hall. Campus Safety Officers and/or Residence Assistants are responsible for checking and securing doors. If a door is malfunctioning, the proper department will immediate perform the repair(s).

It is the resident's responsibility to ensure that their guest(s) are aware of CSI and residence hall policies. Guests are not provided with room keys and must always be escorted by a resident. It is the responsibility of residents and staff members to challenge or report individuals who cannot be identified as residents or guests of residents. When Campus Safety receives a report of an unescorted person in a residence hall, a Campus Safety Officer will be sent to identify that person.

Campus Safety Officers conduct regular checks of the common areas in residence halls and apartments owned or leased by CSI. Residence Assistants are assigned to patrol the residence hall areas during their shifts. During low-occupancy periods such as holidays and scheduled breaks, students are consolidated into designated buildings and gain access via CSI's key control system.

### Special Considerations for Athletic Facility Access

It is the policy of CSI that all **athletics facilities** (spaces typically, but not solely, designated for specific intercollegiate athletic program(s) use) will be accessible only by those CSI athletes and athletic personnel authorized to access such facilities, and during their normal hours of operation. A valid CSI identification card is required to gain access.

### College Affiliated Use of Recreational Facilities

Recreational facilities are spaces which are typically, but not solely, designated for recreational activity that is not affiliated with intercollegiate athletic activity. These are usable only by those individuals with a valid/current CSI student or faculty/staff/retiree identification card. Access to such facilities will only be authorized during the time each facility is specifically designated as being open/available for use.

While open, these facilities shall have the appropriate staff on duty to oversee operations being conducted. Any exceptions to this policy must be given in writing and approved by the appropriate facilities office responsible for athletic and recreational facility access.

### Public Use of College Facilities

CSI facilities are intended primarily for educational purposes and for the benefit of the students. However, CSI may allow for the temporary use of its facilities to outside users when there is no conflict with scheduled college events, functions, or business and in accordance with CSI's rules, procedures, and policies.

CSI reserves the right to refuse the use of its facilities by any user and may limit, deny, terminate, cancel, or prohibit facilities use at any time in case of an emergency or other situation beyond the control of CSI, or if imminent danger exists or unlawful activity is practiced by the user, or if there is any violation of any term, condition, or provision of any applicable user agreement, college rule or procedure, or local, state, or federal law.

Within the limits of applicable laws, CSI is committed to establishing and maintaining safe conditions for persons attending events in college facilities. Accordingly, some events have restrictions on items that may be brought into the event (i.e., beverage containers, noisemakers, drugs, weapons, etc.). Individuals possessing such items will not be admitted to, or will be removed from, CSI facilities until the items have been properly removed, discarded, or stored. All persons entering events at college facilities shall be subject to having all containers, bags, backpacks, coolers, or similar items visually inspected.

CSI will reject or cancel any event which it reasonably anticipates will substantially disrupt or interfere with the college's operations, including closing buildings, cancelling classes, or disrupting education. In making this determination, CSI may consider past conduct including, but not limited to, violent incidents at previous events, of the user and any other reasonable factors. CSI will also reject or cancel any event if it discovers safety and security concerns including, but not limited to, true threats or a risk of imminent violence or other criminal conduct that would endanger people or property and are reasonably likely to occur.

While open, these facilities shall have appropriate staff on duty to oversee operations being conducted and shall not interfere with Campus Safety Officers performing routine safety checks. Agreements to use college facilities must be approved of by the appropriate facilities office responsible for public use of college facility access.

### Security Considerations for the Maintenance of Campus Facilities

College of Southern Idaho is committed to campus safety and security. At the Twin Falls campus, locks, landscaping, and outdoor lighting are designed for safety and security. Sidewalks are designed to provide well-traveled, lighted routes from parking areas to buildings and from building to building. Maps showing the best lit and most traveled routes across campus are available by contacting Campus Safety or online at <https://www.csi.edu/about/maps.aspx>.

Campus Safety, in conjunction with various departments around CSI, conducts monthly surveys of CSI property to evaluate campus lighting. CSI encourages community members to promptly report any safety or security concern, including concerns about locking mechanism, lighting, or landscaping to the Campus Safety at **208-737-6605** or Maintenance Department at **208-732-6603**.

## CRIME STATISTICS

The statistics in this Report are published in accordance with the standards and guidelines used by the FBI Uniform Crime Reporting Handbook and relevant federal law. CSI Campus Safety submits the annual crime statistics published in this Report to the Department of Education (ED). The statistical information gathered by the Department of Education is available to the public at [www. https://ope.ed.gov/campussafety/#/](https://ope.ed.gov/campussafety/#/). Additionally, CSI's daily crime log can be viewed at any time at: <https://www.csi.edu/security/crime-statistics/daily-crime-log.aspx>.

The procedures for preparing the annual disclosure of crime statistics include reporting statistics to the college community obtained from the following sources: Twin Falls Police Department, CSI's Dean of Students Office, and non-police officials. For statistical purposes, crime statistics reported to any of these sources are recorded in the calendar year the crime was reported. We also communicate with departments at various institutions CSI students travel to throughout the academic year in order to obtain accurate statistics.

A written request for statistical information is made on an annual basis to all non-police officials, including Campus Security Authorities. A designated CSA includes, but is not limited to, athletic coaches, college Deans, directors, department heads, residence life staff, and counselors.

## CRIME CATEGORIES

### Larceny – Theft

Theft is a common occurrence on college campuses as it is often seen as a crime of opportunity. Confined living arrangements, recreation facilities, and many open classrooms and laboratories provide thieves with effortless and ample opportunities. Occupants of residence halls often feel a sense of security and an “at-home” atmosphere and become too trusting of their peers, while others leave classrooms and laboratories unlocked when not occupied for short periods of time. It is important to be very vigilant when it comes to suspicious persons. Below are some suggestions to help you not fall victim to theft.

- Keep doors to residence halls, labs, classrooms locked when not occupied.
- Do not provide unauthorized access to persons in the buildings or classrooms.
- Do not keep large amounts of money with you.
- Lock all valuables, money, jewelry, and checkbooks in a lock box or locked drawer.
- Keep a list of all valuable possessions including the make, models, and serial numbers.
- Take advantage of the Engraving Programs to have all valuables engraved with specific identifying marks.
- Do not leave laptop computers or textbooks unattended in labs or libraries, even if it is for a short period of time.
- Do not lend credit cards or identification cards to anyone.
- Report loitering persons or suspicious persons to police immediately; don't take any chances.

### Identity Theft

Identity theft is a crime in which someone wrongfully obtains and uses another person's personal information in some way that involves fraud or deception, typically for economic gain. This personal data could be a Social Security number, bank account, or credit card information. Persons involved in identity theft often use computers or other forms of media to assist them. To lessen the possibility of this happening to you:

- Do not give anyone your personal information unless there is a legitimate reason to trust them.
- Never give your credit card information, date of birth, or other information over the telephone, unless you can confirm the person receiving that information.
- Complete a credit check frequently to assure there is no suspicious activity.
- Examine financial information often to assure all transactions are authorized and accounted for.
- Use security software and install firewalls on computers.

### **Clery Act Crimes**

*Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act* (20 USC § 1092(f)) requires colleges and universities across the United States to disclose information about crimes reported on and around their campuses. The purpose of the *Clery Act* and this Report is to provide the campus community and their families with accurate and complete information. To ensure compliance with the *Clery Act*, College of Southern Idaho must meet the following federal law obligations:

- Collect, classify, and count crime reports committed on CSI campuses and at certain affiliated locations for the previous three calendar years;
- Issue emergency notifications and/or timely warnings for certain crimes that represent an ongoing threat to the campus community;
- Publish an Annual Security and Fire Safety Report which must include policy statements regarding various campus security and fire safety-related topics such as daily crime and fire log data, missing student notification procedures for students residing in on-campus student housing, prevention and awareness programs, as well as disciplinary action procedures, related to sexual assault, dating violence, domestic violence, and stalking, and
- Submit crime and fire statistics to the U.S. Department of Education;

CSI's Campus Safety Department collects *Clery* crime statistics disclosed in the following charts through a number of methods, such as:

- Maintaining a close relationship with all police departments in which College of Southern Idaho owns or controls property to ensure that crimes reported directly to these departments involving CSI are brought to the attention of the Campus Safety Department. In addition to collecting *Clery* crime statistics from local police departments, all reports of crime incidents made directly to Campus Safety (through office contact and Officers) are entered into an integrated computer records management system. The entries are recorded in the system in accordance with the crime definitions outlined in the FBI Uniform Crime Reporting Handbook and the FBI National Incident-Based Reporting System Handbook (sex offenses only). To ensure each report is appropriately classified in the correct crime category, after an Officer enters the report in the system, a department administrator reviews the report to ensure it is appropriately classified.
- Maintaining and collecting *Clery* crime data and statistics of reports made to various CSI Campus Safety Authorities ("CSAs"). The statistics reported in the following charts generally reflect the number of criminal incidents reported to various CSAs. The statistics reported for the subcategories on liquor laws, drug laws, and weapons offenses represent the number of people arrested or referred to campus judicial authorities for respective violations, not the number of offenses documented.

### HATE CRIMES

The College of Southern Idaho strives to foster a safe and healthy learning environment that embodies diversity and inclusion of all members of the CSI community. The hate crime statistics are separated by category of prejudice. The numbers for most of the specific crime categories are part of the overall statistics reported for each year. The only exceptions to this are the addition of larceny/theft, simple assault, intimidation, and any other crime that involves bodily injury that is not already included in the required reporting categories. If a hate crime occurs where there is an incident involving intimidation, vandalism, larceny, simple assault, or other bodily injury, the law requires that the statistic be reported as a hate crime even though there is no requirement to report the crime classification in any other area of the compliance document.

*Note: A hate-related crime is not a separate, distinct crime, but is the commission of a criminal offense which was motivated by the offender's bias. For example, a subject assault a victim, which is a crime. If the facts of the case indicate that the offender was motivated to commit the offense because of his/her bias against the victim's race, sexual orientation, gender, religion, ethnicity, national origin, gender identity, or disability, the assault is then also classified as a hate crime.*

**Hate Crimes** – Includes all of the crimes listed above that manifest evidence that the victim was intentionally selected because the perpetrator's bias against the victim based on one of the *Categories of Prejudice* listed below, plus the following four crimes:

**Larceny/Theft** – Unlawful taking, carrying, leading or riding away of property from the possession or constructive possession of another.

**Simple Assault** – Unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration or loss of consciousness.

**Intimidation** – Unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct but without displaying a weapon or subjecting the victim to actual physical attack.

**Destruction/Damage/Vandalism to Property (except Arson)** – Willfully or maliciously destroy, damage, deface, or otherwise injure real or personal property without the consent of the owner or the person having custody or control of it.

### ***\*CATEGORIES OF PREJUDICE\****

## CRIME PREVENTION

### Campus Security Policies; Crime Prevention and Safety Awareness

College of Southern Idaho believes that safety is everyone’s responsibility. In an effort to provide our students, faculty, staff and community with information about the Campus Safety procedures and practices and with the tools that they need to help to keep themselves and others safe, Campus Safety, and its campus partners, provide a variety of educational programs on topics such as: sexual assault awareness, domestic/relationship violence, stalking, drugs and alcohol awareness, and theft prevention. All programs are offered to students, faculty, and staff as requested and most are offered on an annual basis. Some of the available programs are outlined below, following information on certain Campus Safety policies and procedures. If you or your organization would like to request a specific program, please visit the following website:

<https://www.csi.edu/advising/default.aspx>.

### Campus Assessment Resource Education (CARE) Team

Keith Thompson	Director, Campus Safety	208-732-6860
Jayson Lloyd	Dean of Health Sciences and Human Services	208-732-6547

## COLLEGE OF SOUTHERN IDAHO’S DANGEROUS WEAPONS POLICY

An environment of safety and security is critical for educational institutions to cultivate a climate conducive to knowledge and learning. Therefore, this policy prohibits the possession and use of dangerous weapons on CSI property or at CSI sponsored events by students, faculty, staff and visitors except for those persons authorized by state law or campus administration to carry concealed firearms and ammunition. In order to provide a safe and positive campus environment for teaching, learning and working, this policy strongly discourages bringing a firearm onto the CSI campus or events even when permitted by law to do so.

### Definitions

- . **Dangerous Weapon** - An object, device, instrument, material or substance that is used for or is readily capable of causing death or serious bodily injury. This term does not include a pocketknife with a blade of less than 2 ½ inches in length. Firearms are included in this category as are incendiary devices and explosives.
- . **Firearm** - A dangerous weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive.

## Weapons Policy

- The possession, wearing, carrying, transporting, or use of a dangerous weapon is strictly prohibited on college owned or controlled premises, including vehicles parked upon these premises. The only exceptions to this policy are the following categories of individuals who have been authorized by state law or college administration to carry a concealed firearm on CSI property/events.
  - Full-time sworn peace officers
  - Qualified retired law enforcement officers
  - Persons who hold an “Enhanced” Idaho Concealed Weapons License
  - Those individuals who have been granted specific permission from CSI administration

- Students, staff, faculty, and visitors shall produce their credentials to carry a concealed firearm (under one of the categories above in Item #2) when requested to do so by a representative of the CSI Campus Safety Department or law enforcement personnel.
- Violations of this policy may result in disciplinary action up to and including: expulsion for student offenses, termination for employee offenses, and a trespass from campus for offending community members. Criminal violations will be referred to local law enforcement.
- Unless an employee of CSI is required by the CSI President or Vice President of Administration to carry a firearm as a part of that employee’s job duties, any possession or use of a firearm is not within the course and scope of employment with the college. Therefore, any civil or criminal litigation stemming from such possession or use, will not be covered or defended by CSI.

## ANTI-HAZING POLICY

CSI does not tolerate hazing. Hazing is prohibited for any CSI recognized or sanctioned organization, student, or other person associated with an organization operating under the sanction of or recognized by CSI. Organizations or individuals found responsible for hazing under this Policy, whether occurring on or off campus, may be subject to disciplinary action by CSI, and may also face criminal charges under **Idaho Code § 18-917**.

For purposes of this Policy, it shall not be a defense that the consent of the minor or student was sought or obtained or that the conduct was sanctioned or approved by the organization.

**Idaho Code 18-917** defines Hazing as:

- (1) No student or member of a fraternity, sorority or other living or social student group or organization organized or operating on or near a school or college or university campus, shall intentionally haze or conspire to haze any member, potential member or person pledged to be a member of the group or organization, as a condition or precondition of attaining membership in the group or organization or of attaining any office or status therein.

Anonymous reports may also be submitted.

This Policy and reports made pursuant to this Policy do not supersede or replace other reporting obligations mandated by law or CSI policy. Reported allegations of hazing will be investigated by CSI, or other appropriate investigating agencies, and, if violations are found, individuals and organizations will be held accountable by the relevant CSI entity that has authority over the individual (e.g., Student Conduct or CSI /Athletics). Violations may result in disciplinary actions

for individuals or organizations, which can include, but are not limited to, written warnings, probation, fines, loss of privileges, loss of recognition, mandatory training or education, loss of salary increase, administrative leave, suspension, expulsion, revocation of tenure, discontinued participation in youth programming allegations have been satisfactorily resolved and/or termination of employment. ### **STUDENT CONDUCT**

#### **Student Affairs Office**

The Student Affairs Office strives to deliver a conduct process that is equitable, just, educational, effective and expeditious; and to provide a system that promotes individual and organizational growth through responsibility and in which the success of its educational endeavors is characterized by increased civility.

#### **Student Code of Conduct**

The Student Affairs Office is responsible for administering the Code of Conduct, which articulates the behavioral standards and the equitable procedures employed by the CSI to respond to allegations of student or organizational misconduct.

The Code of Conduct is administered at all College of Southern Idaho campuses, may also address off-campus student or organizational misconduct when a student's or organization's behavior affects a substantial CSI interest.

Students or organizations who are found responsible for violations may be subject to sanctions ranging from conversation, probation, suspension or expulsion from CSI. Students or organizations residing in CSI housing may also lose the privilege of living on campus.

In most cases, the Student Affairs Office will also assign developmental and educational interventions designed to promote greater awareness and improved decision making for students or organizations and to deter future misconduct.

CSI will, upon written request, disclose to an alleged victim of a crime of violence or non-forcible sexual assault the outcome of the conduct process in writing. Written request is not required, however, from an alleged victim of, domestic violence, dating violence, sexual assault, or stalking. If the alleged victim is deceased as a result of such crime or offense, the next of kin of such victim shall be treated as an alleged victim for purposes of this paragraph.

In instances where a student's or organization's conduct, behavior, or other objective evidence provides a reasonable cause to believe a student or organization is an immediate and significant threat to the health or safety of other persons, to property of CSI or others, to disrupting essential campus operations, or to the student's own health or safety, the Student Affairs Office may assign an Interim Suspension and/or other interim actions that are designed to protect the health and safety of the community and members therein.

The Student Affairs Office also provides outreach programming designed to inform and educate students and to promote the values of the College of Southern Idaho. College of Southern Idaho, under the guidelines of the Family Educational Rights and Privacy Act (FERPA), notifies parents and families in specific instances where a student accepts responsibility, or is found responsible, for a violation of an alcohol or drug policy or receives a sanction that may impact their status as a student.

CSI reserves the right to notify parents/guardians of dependent students regarding any conduct situation, particularly alcohol and other drug violations. CSI may also notify parents/guardians of non-dependent students who are under age 21 and are charged with alcohol and/or drug law or Policy violations. Where a student is not-dependent, CSI reserves the right to contact parents/guardians to inform them of situations in which there is a health and/or safety risk. CSI also reserves the right to designate which college officials have a need to know about individual conduct complaints pursuant to the Family Educational Rights and Privacy Act (FERPA)

For more information, please review CSI's Code of Conduct and additional information concerning Parental Notification:

### **MISSING STUDENT NOTIFICATION**

Effective August 14, 2008, the Higher Education Opportunity Act of 2008 requires any institution participating in a Title IV federal student financial aid program that maintains on campus housing facilities to establish a missing student notification policy and related procedures (**20 USC 1092(j) Section 488 of the Higher Education Opportunity Act of 2008**) for students living in on campus housing. The following policy and related procedures is the College of Southern Idaho's official Missing Student Policy.

### **Definitions**

**College of Southern Idaho/CSI** – Any owned or leased property that the College of Southern Idaho has academic/administrative functions control and function.

**Student** – CSI defines a student as any person enrolled in any class or program of CSI, full or part time.

**Emancipated Individual** – A person less than 18 years of age who has been declared by a court to be independent of his or her parents.

### Policy

CSI will provide every student living in campus student housing the opportunity and means to identify a missing student contact to be used in the event the student is reported missing. Missing student contact information will be registered confidentially and will be accessible only to authorized CSI officials and may not be disclosed except to law enforcement personnel in furtherance of a missing person investigation.

In accordance with the procedures established within this policy, within 24 hours after a student living in campus student housing has been reported missing and the student is not known to have returned to CSI or otherwise been located, the Dean of Students or his/her designee will notify the student's designated missing person contact. If the missing student is under 18 years of age and not an emancipated individual, the Dean of Students or his/her designee will also notify the student's custodial parent or guardian.

Students will be notified annually that each residential student of CSI has the option to confidentially designate an individual to be contacted by the College of Southern Idaho administration no later than 24 hours after the time that it is determined the student is missing.

CSI provides each student with the means and opportunity to register their confidential missing student contact information to the Housing Coordinator by filling out the Address and Contact Information. This confidential missing student contact can be anyone. This option is provided to students even if a student has already registered an individual as a general emergency contact. The student also has the option to identify the same individual for both their general emergency contact and missing student contact.

CSI's Campus Safety Department will assist the Twin Falls Police Department investigation of all reports of missing students.

### Procedures

Any individual who believes a student living in campus student housing may be missing should immediately contact the Housing Coordinator and Campus Safety. The Housing Coordinator may notify the Dean of Students upon receipt of a missing student report. When receiving such report, the Dean of Students, Housing Coordinator and Campus Safety will attempt to determine whether the student is, in fact, missing. Among other steps that may be taken depending on the circumstances:

- The Dean of Students or his/her designee will attempt to contact the student through all reasonable and available means.
- Campus Safety will investigate the validity of the missing person report and manage the information according to its established investigative standards.
- Campus Safety may notify appropriate CSI personnel and seek their aid in the investigation (e.g. Student Affairs, Residence Life, Counseling and Psychological Services, etc.).
- Regardless of whether the student has identified a contact person, is above the age of 18, or is an emancipated minor, Campus Safety will notify local law enforcement agencies within

24 hours of the determination that the student is missing, unless the local law enforcement agency was the entity that made the determination that the student is missing.

If, within 24 hours of the report, Campus Safety is unable to locate the missing student and the student is not known to have returned to CSI or otherwise located, Campus Safety will notify the Dean of Students and (s)he or his/her designee will take the following action(s):

The Dean of Students or his/her designee will promptly notify the individual the student has designated as his/her missing person contact and document the date and time of the notification.

If the missing student is under 18 years of age and not an emancipated individual, the Dean of Students or his/her designee will also notify the student's custodial parent or guardian and document the date and time of the notification.

Campus Safety and the Dean of Students will coordinate their efforts to locate the missing student. The Dean of Students will notify the Vice President of Student Affairs and update him/her on the status of the investigation as appropriate.

When the missing student is located, the Dean of Students or his/her designee will contact the student to offer any appropriate support, as well as the emergency contacts and/or parents to confirm the student has been located.

If the initial investigation is unsuccessful in locating the missing student, Campus Safety will continue to assist Twin Falls Police Department investigate according to established police procedures. The Dean of Students will decide what further action, if any, should be taken by the Office of Student Affairs.

### **Additional Information**

While this policy applies only to students living in on campus student housing, reports of students missing from off-campus residences will be referred to the law enforcement agency having jurisdiction over the student's local residence, if known, or the student's permanent residence if a local residence cannot be determined, and CSI will cooperate within its legal limitations with any subsequent investigation.

### **COLLEGE OF SOUTHERN IDAHO'S RESPONSE TO DOMESTIC VIOLENCE, DATING VIOLENCE, SEXUAL ASSAULT, AND STALKING**

CSI does not discriminate on the basis of sex in its educational programs nor does CSI tolerate sexual violence, or sexual harassment, which are types of sex discrimination. Other forms of sex-based discrimination are also prohibited whether gender-based or not. Such acts include dating violence, domestic violence, and stalking. As such, CSI issues this statement of policy to inform the community of our comprehensive plan addressing sexual misconduct, educational programs, and procedures that address sexual assault, domestic violence, dating violence, and stalking, whether the incident happens on or off campus, and how such events are reported to a CSI official. In this context, CSI prohibits the offenses of domestic violence, dating violence, sexual assault, and stalking, and reaffirms its commitment to maintaining a campus environment that emphasizes the dignity and worth of all members of the campus community.

### **Our Commitment to Addressing Sexual Assault/ Rape, Domestic Violence, Dating Violence, and Stalking**

CSI does not tolerate sexual misconduct or abuse, such as sexual assault, rape, or any other forms of nonconsensual sexual activity. Sexual misconduct in any form violates the Student Code of Conduct and may also violate State or Federal laws. Violations are subject to disciplinary sanctions through the Office of Student Conduct. More information can be found by visiting the following:

- <https://www.csi.edu/student-handbook/discrimination-and-harassment/policy.aspx> and
- <https://csi.smartcatalogiq.com/en/2017-2018/Catalog/Becoming-a-Student/Student-Code-of-Conduct>

## What is Consent?

Idaho does not define consent in reference to sexual activity.

## DEFINING SEXUAL ASSAULT, RAPE, FONDLING, INCEST, OR STATUTORY RAPE, DOMESTIC VIOLENCE, DATING VIOLENCE, AND STALKING SEXUAL ASSAULT

A sex offense is any sexual act directed against another person, without the consent of the victim, including instances where the victim is incapable of giving consent.

- Falling under the definition of sexual assault is sexual activity, such as completed or attempted, unwanted, sexual intercourse (rape), continuing with sexual activity beyond the bounds of consent (for example, not using a condom when consent was based on condom use or sexual penetration of any orifice), and nonconsensual fondling.
- Sexual assault is never the victim's fault, rather it is the fault of the person engaging in the sexual activity without getting explicit consent.

### ***Sexual Assault***

Sexual assault is any type of offense that meets the definition of rape, fondling, incest, or statutory rape as used in the FBI's Uniform Crime Reporting (UCR) Program that occurs when a person engages in sexual intercourse or deviates sexual intercourse with a complainant without the victim's consent. Sexual assault also includes, but is not limited to, attempted or unwanted sexual activity, such as sexual touching and fondling.

The *Clery Act* defines Sexual Assault as any sexual act directed against another person, without consent of the victim, including instances where the victim is incapable of giving consent. This includes rape, fondling, incest, and statutory rape as defined by the *Clery Act*.

### ***Rape***

The penetration, however slight, of the oral, anal, or vaginal opening with a penis accomplished under any of the following circumstances:

- Where the victim is incapable, through any unsoundness of mind, due to any cause including, but not limited to, mental illness, mental disability, or developmental disability (temporary or permanent), of giving legal consent;
- Where the victim is prevented from resistance due to an objectively reasonable belief that resistance would be futile or that resistance would result in force or violence beyond that necessary to accomplish the prohibited contact;
- Where the victim resists but the resistance is overcome by force or violence;
- Where the victim is prevented from resistance by the infliction, attempted infliction, or threatened infliction of bodily harm; or is unable to resist due to any intoxicating, narcotic, or anesthetic substance;
- Where the victim is at the time unconscious of the nature of the act;

- Where the victim submits under the belief that the perpetrator is the victim's spouse, and the belief is induced by artifice, pretense, or concealment practiced by the perpetrator, with intent to induce such belief;
- Where the victim submits under the belief that the perpetrator is someone other than the accused, and the belief is induced by artifice, pretense, or concealment practiced by the accused, with the intent to induce such belief; *or*
- Where the victim submits under the belief, instilled by the perpetrator, that if the victim does not submit, the perpetrator will cause physical harm to some person in the future; or cause damage to property; or engage in other conduct constituting a crime; or accuse any person of a crime or cause criminal charges to be instituted against the victim; or expose a secret or publicize an asserted fact, whether true or false, tending to subject any person to hatred, contempt, or ridicule.

The *Clery Act* defines rape as the penetration, no matter how slight, of the vagina or anus, with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. This offense includes the rape of both males and females.

### **Fondling**

The *Clery Act* defines fondling as the touching of the private body parts (defined as genitalia, groin, breast or buttock, or clothing covering them) of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of age or because of temporary or permanent mental incapacity.

### **Incest**

The *Clery Act* defines incest as nonforcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

### **Statutory Rape**

Sexual intercourse with a person who is:

- under the age of 16 years and the perpetrator is 18 years of age or older;
- 16 or 17 years and the perpetrator is three years or older than the victim.

### **Domestic Violence**

Idaho Code 39-6303 defines *Domestic Violence* as the physical injury, sexual abuse or forced imprisonment or threat thereof of a family or household member, or of a minor child by a person with whom the minor child has had or is having a dating relationship, or of an adult by a person with whom the adult has had or is having a dating relationship.

### **Three types of Domestic Violence:**

#### **Battery Resulting in Traumatic Injury**

An offender who commits a battery against a household or family member that results in a traumatic injury is guilty of felony domestic battery.

#### **Assault Not Resulting in Traumatic Injury**

An offender who commits an assault against a household or family member that doesn't result in traumatic injury is guilty of misdemeanor domestic assault.

### **Battery Not Resulting in Traumatic Injury**

An offender who commits a battery against a household or family member that doesn't result in traumatic injury is guilty of misdemeanor domestic battery.-

The *Clery Act* defines domestic violence as a felony or misdemeanor crime of violence committed:

- By a current or former spouse or intimate partner of the victim.
- By a person with whom the victim shares a child in common.
- By a person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner.
- By a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.
- By any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.

### **Dating Violence**

*Dating Violence is not specifically defined by Idaho statute.*

The *Clery Act* defines dating violence as violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on the reporting party's statement and with consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship.

### **Stalking**

Under Idaho law, stalking is when an abuser intentionally and maliciously engages in a "course of conduct" that -

- seriously alarms, annoys, or harasses you (and would cause a "reasonable person" to feel substantial emotional distress); *or*
- would cause a "reasonable person" to be in fear of his/her own death or physical injury or in fear of a family or household member's death or physical injury.

A "**course of conduct**" means that the abuser has repeatedly made "nonconsensual contact" with you or your family or household members. In other words, the contact began or continued without your consent, went beyond the scope of any contact that you did consent to, or it happened even though you specifically asked that (s)he not contact you or stop contacting you (if at first you were OK with it). Some examples of "**nonconsensual contact**" include, but are not limited to:

- following you or maintaining surveillance (electronic or otherwise) on you;
- contacting you in a public place or on private property;
- appearing at your home or workplace;
- entering onto or remaining on property owned, leased, or occupied by you;
- contacting you by telephone or causing your telephone to ring repeatedly or continuously regardless of whether s/he says anything over the phone;
- sending you mail, email, or other electronic communications; *or*
- placing an object on or delivering an object to property owned, leased, or occupied by you.

The *Clery Act* defines stalking as engaging in a course of conduct directed at a specific person that would cause a reasonable person to

- fear for the person's safety or the safety of others; or
- suffer substantial emotional distress.

### **WHAT TO DO IF YOU HAVE BEEN THE VICTIM OF SEXUAL ASSAULT, DATING VIOLENCE, DOMESTIC VIOLENCE, OR STALKING**

After an incident of sexual assault, it is important to seek medical attention as soon as possible. It is important that victims of sexual assault not bathe, douche, smoke, change clothing or clean the bed/linen/area where they were assaulted if the offense occurred within the past 96 hours so that evidence, as may be necessary to the proof of criminal activity, may be preserved. In circumstances of sexual assault, if victims do not opt for forensic evidence collection, health care providers can still treat injuries and take steps to address concerns of pregnancy and/or sexually transmitted disease.

Victims of sexual assault, domestic violence, stalking, and dating violence are encouraged to also preserve evidence by saving text messages, instant messages, social networking pages, other communications, and keeping pictures, logs or other copies of documents, if they have any, that would be useful to CSI hearing boards/ investigators or police. Victims of sexual assault, domestic violence, stalking and dating violence are also encouraged to preserve physical and medical evidence as may be necessary to the proof of criminal domestic violence, dating violence, sexual assault or stalking or in obtaining a protection order.

Although CSI strongly encourages all members of its community to report violations of this policy to law enforcement, it is the victim's choice whether or not to make such a report, and victims have the right to decline involvement with the police. Whether a victim reports the crime to the police, or not, if the alleged offender is a member of CSI's community, the victim has a right to proceed to seek CSI discipline against the offender as explained in more detail in the section of this Annual Security Report entitled, **"COLLEGE OF SOUTHERN IDAHO'S PROCEDURES FOR RESPONDING TO REPORTS OF SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE, AND STALKING"**.

To criminally report an incident involving a sexual assault, domestic violence, stalking, and dating violence, contact the College of Southern Idaho Campus Safety Department at **208-732-6605** and/or **911** for local law enforcement. CSI will assist any victim with notifying local police if they so desire, including assisting a victim with making a police report. Making a police report can involve calling or visiting the local police agency to initiate a report. A victim of domestic violence, dating violence, sexual assault or stalking who proceeds through the criminal process has the following rights, which, upon request, will be provided to a reporting student or employee in writing, regardless of where the crime occurred:

- To receive information concerning available services for victims.
- To be notified of certain significant actions and proceedings pertaining to your case.
- To be accompanied at all public criminal proceeding by a victim advocate, family member or another person.
- In cases involving personal injury crimes, burglary, and crimes relating to driving under the influence which involved bodily injury, the victim may offer prior comment on the potential reduction or dropping of any charge or changing of a plea.
- Where applicable, to assist in obtaining an order of protection, no contact order, restraining

order, or other similar lawful order issued by a criminal, civil or tribal court, or a no contact directive from CSI.

- If personal injury results from the incident, and the offender is sentenced to a state correctional facility, the victim has the opportunity to provide prior comment on and to receive state post sentencing release decisions (work release, parole, pardon, or community treatment center placement) and to be provided immediate notice of escape of the offender.
- If personal injury occurs from the incident and the offender is sentenced to a local correctional facility, the victim has the right to receive notice of release of the offender (including work release, furlough, parole, community treatment center placement) and to be provided with immediate notice of the escape of the offender.
- When an offender is committed to a mental health facility from a state correctional institution, the victim has the right to notice of the discharge, transfer, or escape of the offender from the mental health facility.
- The victim has the right to have assistance in the preparation of, submission of and follow-up on financial assistance claims to the Crime Victim's Compensation Program.

Moreover, to the extent of the victim's cooperation and consent, CSI offices will work to ensure that the complainant's health, physical safety, work, and academic status are protected, pending the outcome of a formal CSI investigation of the complaint. For example, a complainant may be offered changes to academic, living, transportation, or working situations or protective measures in addition to counseling, health services, and assistance in notifying appropriate local law enforcement, which, where appropriate and requested, and to the extent permissible by law, will be kept confidential. All options for accommodations and protective measures will be provided to the complainant in writing upon request. CSI will make accommodations or provide protective measures regardless of whether the complainant chooses to report the crime to campus police or local law enforcement. For information about protecting confidentiality, see "Protecting the Confidentiality of Victims" within.

### **Risk Reduction, Warning Signs of Abusive Behavior and Future Attacks**

No victim is EVER to blame for being assaulted or abused. Unfortunately, studies indicate the victim of sexual or dating violence is more likely to be re-victimized. Below are some tips to help reduce your risk, recognize warnings signs of abusive behavior, and how to reduce risks of an attack.

#### **Warning Signs of Abusive Behavior**

Domestic and dating abuse often escalates from threats/verbal abuse to violence. While physical injury may be the most obvious danger, the emotional and psychological damage of domestic and dating violence are also severe. Warning signs include:

- Being afraid of your partner.
- Constantly watching what you say to avoid a "blow up".
- Feelings of low self-worth and helplessness about your relationship.
- Feeling isolated from family or friends because of your relationship.
- Hiding bruises or other injuries from family or friends.
- Being prevented from working, studying, going home, and/or using technology (including your cell phone).
- Being monitored by your partner at home, work, or school.

- Being forced to do things you don't want to do.

### **Help Reduce Your Risk and Avoid Potential Attacks**

If you are being abused or suspect that someone you know is being abused, speak up or intervene. Get help by contacting the Counseling Center, Student Services, or Human Resources for support services:

- Learn how to look for “red flags” in relationships so you can learn to avoid some of those characteristics in future partners.
- Consider making a report with CSI Campus Safety and/or the Title IX Coordinator and ask for a “no contact” directive from CSI to prevent future contact.
- Consider getting a protection order or no-contact order from a local judge or magisterial justice.
- Learn more about what behaviors constitute dating and domestic violence, understand it is not your fault, and talk with friends and family members about ways you can be supported.
- Trust your instincts—if something does not feel right in a relationship, speak up or end it.

### **Sexual Assault Prevention (Rape, Abuse & Incest National Network (RAINN))**

- Be aware of rape drugs.
- Try not to leave your drink unattended.
- Only drink from un-opened containers or from drinks you have watched being made and poured.
- Avoid group drinks like punch bowls.
- Cover your drink. It is easy to slip in a small pill even while you are holding your drink. Hold a cup with your hand over the top or choose drinks that are contained in a bottle and keep your thumb over the nozzle.
- If you feel extremely tired or drunk for no apparent reason, you may have been drugged. Find your friends and ask them to leave with you as soon as possible.
- If you suspect you have been drugged, go to a hospital, and ask to be tested.
- Keep track of how many drinks you have had.
- Try to come and leave with a group of people you trust.
- Avoid giving out your personal information (phone number, where you live, etc.). If someone asks for your number, take his/ her number instead of giving out yours.

### **Traveling Around Campus (Walking)**

- Make sure your cell phone is easily accessible and fully charged.
- Take major, public paths rather than less populated shortcuts.
- Avoid dimly lit places and notify campus services if you believe that lights need to be installed in an area.
- Be alert and aware of your surroundings and avoid unnecessary distractions.
- Travel in groups when possible.
- Carry a noisemaker (like a whistle) on your keychain.
- Carry a small flashlight on your keychain.
- If walking on campus feels unsafe, please call Campus Safety at **(208) 732-6605**. An Officer will accompany students, faculty, or staff from one campus location to another. Escort services are available 365 days a year from dusk to dawn.

## **SAFETY TIPS**

While knowing risk reduction tips may assist in mitigating some known risks, it cannot prevent an attacker from committing acts of violence. Recognizing that the perpetrator of violence or abuse is the sole party responsible for their abuse and behavior and that victims are never to blame. Here are some strategies to reduce one's risk:

### **General Safety/Risk Reduction**

- . Be aware of your surroundings.
- . Secure and lock all windows, doors, and entrances to your vehicles, dorm rooms, apartments, and offices.
- . Avoid allowing strangers into dorm residences with your access card.
- . Try avoiding isolated areas.
- . Walk with purpose. Even if you don't know where you are going, act as if you do.
- . Trust your instincts. If you feel unsafe or uncomfortable, it probably isn't the best place to be. If you see something suspicious, contact Campus Safety at 208-732-6605 or local law enforcement.
- . Try not to load yourself down with packages or bags as this can make you appear more vulnerable.
- . Make sure your cell phone is with you (and charged).
- . Avoid putting headphones/earbuds in both ears so that you can be more aware of your surroundings, especially if you are walking alone.
- . Watch out for your friends and vice versa. Arrive together, check in with each other throughout the evening, and leave together.
- . Don't leave your drink unattended while talking, dancing, using the restroom, or making a phone call. If you've left your drink alone, just get a new one.
- . Don't accept drinks from people you don't know or trust.
- . If you suspect you or a friend has been drugged, contact Campus Safety 208-732-6605 or local law enforcement.

### **Getting Out of Uncomfortable Situations**

- < Remember that being in this situation is not your fault. You did not do anything wrong; it is the person who is making you uncomfortable that is to blame.
- < Be true to yourself. Don't feel obligated to do anything you don't want to do. "I don't want to" is always a good enough reason.
- < Have a code word to use with your friends and family in case of an uncomfortable situation. That way, you can call them and say the code word so they can come to get you or make up an excuse for you to leave.
- < Lie. If you don't want to hurt they person's feelings, it is better to lie and make up a reason to leave than to stay and be uncomfortable, scared, or worse.
- < Try to think of an escape route. Where are the doors? Windows? Are there people around who could help?

### **Bystander Intervention**

We all have a role to play in watching out for each other at College of Southern Idaho. Bystander intervention focuses on interrupting situations related to sexual and relationship violence, mental health concerns, acts of bias, and risky drinking. Bystander intervention is built upon the premise that in order to reduce harm on campus, a cultural shift is necessary. There are two ways that

bystanders can act and contribute to that cultural shift.

## **Reactive Choices**

The 3D's are options a bystander can use to respond to concerning situations in a safe and effective way.

### **Direct**

Directly interact with the people involved in the situation and acknowledge concern.

#### **Options to interrupt sexual violence**

- Grab some friends and check in together.
- “Are you ok?”
- “I don’t think you should hook up with that person. They seem drunk.”

#### **Options to interrupt acts of bias**

- “I don’t know if you intended your comment to come across that way, but I understood it as you are implying...”
- “Are ALL \_\_\_\_\_ really like that? That’s not my experience.”
- “Are you okay? I want to let you know I don’t agree with what that person said. Can I be supportive in some way?”

### **Distract**

When an individual does not overtly express concern, but still takes action to interrupt the situation.

#### **Options to interrupt sexual violence**

- Say their friends have been looking for them.
- Just stick around and don’t leave the two alone.
- Offer an alternative activity that separates the two.

#### **Options to interrupt acts of bias**

- Act like you know the target and act like you are inviting them to get coffee to get them an opportunity to leave the situation.
- Change the topic of conversation, then follow up later to address the issue with them.

### **Delegate**

Asking someone else to intervene. This also notifies someone else of what is going on and that something needs to be done. If someone ever feels unsafe or thinks it would put the target in more danger, a bystander should delegate.

#### **Options to interrupt sexual violence**

- Talk to their friends and ask them to check in.
- Tell a RA.
- Call 911 or Campus Safety.
- Tell the host of the event, and make sure they check in.

**Options to interrupt acts of bias**

- Tell a person in authority, like a manager, supervisor, RA, or party host
- Ask a friend of the person making comments to get their friend to stop doing that
- Submit report to:”

**<https://cm.maxient.com/reportingform.php?CollegeofSouthernID>**

**Proactive Choices**

Daily choices individuals can make that show others that violence and harm will not be tolerated on campus. No one can do everything, but everyone can do something. When enough people do things to show that they do not tolerate violence and harm at CSI, it will create an environment where less people are hurt.

- Educate yourself about sexual and relationship violence, and acts of bias.
- Use social media to share content and educate others.
- Make it the norm in your friend group to check in with each other.
- Learn more about these issues by choosing the topic for a class project or requesting a program for a student organization meeting.

**COLLEGE OF SOUTHERN IDAHO’S PROCEDURES FOR RESPONDING TO REPORTS OF SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE, AND STALKING**

### SEX OFFENDER REGISTRY

The Campus Sex Crimes Prevention Act of 2000 is a federal law that requires institutions of higher education to issue a statement to the campus community about where to find information concerning registered sex offenders. It also requires sex offenders, already required by state law to register in a state, to provide notice to each institution of higher education in that state, at which the person is employed, carries on a vocation, or is a student.

### Megan's Law

Members of the general public may request community notification fliers for information concerning sexually violent predators in a particular community by visiting the chief law enforcement officer in that community. In Idaho, convicted sex offenders must register with a central registry maintained by the Idaho State Police. The Idaho State Police then sends the Campus Safety Department notifications of sex offenders attending and/or employed by the College of Southern Idaho. For further information regarding this policy, please contact the Director of Campus Safety at [ktthompson@csi.edu](mailto:ktthompson@csi.edu) or his Administrative Assistant at [cwolverton@csi.edu](mailto:cwolverton@csi.edu). In jurisdictions where the Idaho State Police is the primary law enforcement agency, members of the general public may make such requests at the local Idaho State Police District Office (218 W. Yakima, Jerome, ID. 83338, 208-324-6000) in that community. Information regarding registered sex offenders in the State of Idaho under section 121 of the Adam Walsh Child Protection and Safety Act of 2006 (42 U.S.C. 16921) can be obtained by clicking on the link below to access the Idaho State Police Sex Offender Registry website [https://isp.idaho.gov/sor\\_id/](https://isp.idaho.gov/sor_id/).

### DRUG AND ALCOHOL POLICY

College of Southern Idaho recognizes the health risks and costs associated with the use of illicit drugs and the abuse of alcohol and is committed to providing a drug-free and alcohol-free educational environment, which supports the mission of CSI.

It is the policy of the College of Southern Idaho that the unlawful manufacture, distribution, dispensation, possession, use of a controlled substance, or the purchase, sale, possession, use, or consumption of alcohol is strictly prohibited on college premises and at all college-sponsored events and activities on and off campus. Drug and alcohol policy violations may also constitute violations of laws and students are accountable to both the college and the appropriate law enforcement agency. State and federal laws also prohibit the use and/or possession of illegal drugs and drug paraphernalia. CSI reserves the right to notify appropriate law enforcement agency when violation of the alcohol and drug policy is also a violation of law.

Under Idaho law, it is illegal for any person under 21 years of age to purchase or attempt to purchase or otherwise procure, possess, or consume beer, wine, or other alcoholic or intoxicating liquor. It is also illegal to sell, serve, give or furnish beer, wine, or other alcoholic or intoxicating liquor to a person under age specified above. It is also illegal for any underage person to falsify a driver's license or other identification document or for any person to permit his/her driver's license or any other identification document by and underage person to purchase alcoholic beverages. Local beverage ordinances, which conform closely to state law, also apply on college premises and are enforced by the appropriate law enforcement agency.

CSI has adopted and implemented an alcohol and drug abuse prevention program. The Board of Trustees authorizes the President of CSI or his/her designee to permit the presence of alcohol at

an off-campus CSI-sponsored event when, in his/her discretion, it is appropriate. This alcohol policy does not apply to College of Southern Idaho Foundation.

CSI's primary role in dealing with matters involving the use or potential use of drugs or alcohol by its students is that of prevention, counseling, and education.

This policy is subject to change at any time, as CSI's administration may deem necessary for the protection of people or property.

### **CSI Drug and Alcohol Violation Procedures**

The following guidelines represent typical responses that will most likely occur when violations of CSI's drug and alcohol policy are made. Although each incident is considered on its own merit, prior policy violations will be taken into consideration when decisions are rendered. In some situations, a first offense may result in a more serious response, given the nature of the incident. Students may take the two-hour drug education seminar even if they have not violated the drug and alcohol policy.

#### **Level 1**

A level 1 offense is when a student violates the drug and alcohol policy for the first time. The student will be required to attend a two-hour drug education seminar. An example of this violation may include, but is not limited to, possession of alcohol underage or sustained presence in a room where other drug and alcohol policy violations are taking place.

#### **Level 2**

A level two offense is when a student violates the drug and alcohol policy for a second time or when a student's use of substances causes personal or academic consequences. Depending on the situation the student will attend the two-hour education seminar. Students will also be referred to counseling services, a drug/alcohol recovery program and a letter sent to their parents (if under the age of 21). Examples of this violation include, but are not limited to: possession of marijuana, drug paraphernalia, large quantities of alcohol, kegs or beer balls, or use in public or common areas, participation in drinking games, or a repeat of a level one offense.

#### **Level 3**

A level three offense involves behavior that suggests the excessive consumption of alcohol or drugs, or leads to an alcohol or other drug-related arrest. At this level, the student's family will be notified; the student will either be placed on temporary behavioral probation depending on the individual circumstances. This level of severity may require that the student receive a professional alcohol assessment. Examples of violations at this level might include, but are not limited to, third violation of policy, alcohol and other drug related hospitalization, arrest for false identification, DUI while on campus or at any CSI sponsored event. NOTE: Students who are responsible for hosting or sponsoring drinking games, who procure kegs, or otherwise engage in sponsoring behavior, which is unsafe, by its nature are considered to be responsible for a level three offense.

#### **Level 4**

A level four offense is when substance use results in behavior that leads to potential or actual harm to self or others. The student will likely be suspended or separated from CSI and could face referral to the local law enforcement agency. Some examples might include, but are not limited to: growing, manufacturing, selling, or distributing illegal substances, selling or distributing

prescribed medications, possessing cocaine, opioid's, or hallucinogens, fighting, sexual harassment/assault, verbal threats, while under the influence of alcohol or illegal drugs or more than three violations of the policy.

### **Sanctions**

Sanctions are designed to promote CSI's educational mission. Sanctions may also serve to promote safety or to deter students from behavior which harms or threatens people or property. Refer to the Student Code of Conduct for possible sanctions.

### **Appeals Process**

CSI has established a committee composed of students, faculty, and staff to deliberate student appeals. All appeals must be formally submitted to the Associate Dean of Student Affairs no later than 10 working days after the sanction has been imposed.

### **Failure to Comply**

If students choose to not participate in the required activities relative to their violation of the drug and alcohol policy, the student may be suspended from CSI.

### **Letter and Policy**

Students under the age of 21 are subject to the parent/guardian notification policy. College of Southern Idaho reserves the right to apply this policy to students over 21 where circumstances are such that it is in the best interest of the student and CSI.

### **Conditions under which parent/guardian may be notified:**

- As a rule, upon the finding of responsibility for the first alcohol or drug related offense. The student will be required to attend a 2-hour educational seminar.
- Students, who violate level two, three or four of the drug and alcohol policy, are subject to parental notification in either written or verbal form, if they are under the age of 21.
- Student affairs administrators reserve the right to exercise professional judgment and discretion in the application of this policy.

### **State and Federal Law**

Under Idaho law, it is illegal for any person under 21 years of age to purchase or attempt to purchase or otherwise procure, possess, or consume beer, wine, or other alcoholic or intoxicating liquor. It is also illegal to sell, serve, give or furnish beer, wine, or other alcoholic or intoxicating liquor to a person under age specified above. It is also illegal for any underage person to falsify a driver's license or other identification document or for any person to permit his/her driver's license or any other identification document by and underage person to purchase alcoholic beverages. Local beverage ordinances, which conform closely to state law, also apply on CSI premises and are enforced by the appropriate law enforcement agency.

### **COLLEGE OF SOUTHERN IDAHO SMOKING AND TOBACCO POLICY**

Smoking is prohibited on all college properties, including off-campus centers and any properties owned or leased by CSI. For the purposes of this policy, smoking is defined as burning any type of tobacco product including, but not limited to, cigarettes, cigars, cigarillos, pipes, bidis and e-cigarettes.

Organizers and attendees at public events, such as conferences, meetings, public lectures, athletic events, social events and cultural events, using CSI facilities will be required to abide by the CSI Smoke Free Policy. Organizers of such events are responsible for communicating this policy to attendees and for enforcing this policy.

The following smoking prohibitions have been established on the CSI campus:

- Smoking is prohibited in all CSI-owned residences, including Eagle Hall.
- Smoking is prohibited in all CSI-owned or leased vehicles.

- The sale of tobacco products on campus is prohibited.
- The free distribution of tobacco products on campus is prohibited.
- Campus organizations are prohibited from accepting money or gifts from tobacco companies.
- Tobacco advertisements are prohibited in CSI-sponsored publications.

CSI will provide free, accessible tobacco treatment on-campus and will publicize its availability. These programs will be designed to meet the special needs of those they serve. These tobacco treatment programs shall be publicized regularly in student and employee publications, posted in residence halls and academic buildings, through Student Services, and through other appropriate means.

Effective implementation of this Smoke Free Policy depends upon the courtesy, respect, and cooperation of all members of the CSI community. Complaints or disputes should be brought to the attention of the CSI employee who has immediate responsibility for the workplace, event, or residence, or to her/his supervisor. If satisfactory resolution is not reached, the Dean of Students or the Director of Human Resources should be consulted.

### **EMERGENCY RESPONSE AND EVACUATION PROCEDURES**

The Campus Safety Department assists departments and campuses with developing, maintaining, and implementing emergency operations plans, developing and conducting exercises, all hazard and risk education, and building partnerships with external response agencies. They are responsible for assisting with, and coordinating, CSI's emergency management program. Each CSI campus maintains the capabilities necessary to warn and evacuate their respective location. A part of these capabilities includes the development and distribution of emergency response guidelines to students, faculty, and staff. These guidelines are maintained and distributed in a variety of ways.

#### **Drills, Exercises, and Training**

To ensure CSI's emergency management plans remain current and actionable, it is CSI's policy to conduct at least one exercise annually. These exercises include, but are not limited to, seminars, drills, and tabletops (functional and/or full scale). CSI conducts after-action reviews of all emergency management exercises. The Campus Safety Department will work with each location to develop exercise scenarios. Outreach to local, state, and federal responders and stakeholders is also conducted to solicit participation. In conjunction with at least one emergency management exercise each year, CSI will notify the appropriate campus community of the exercise and remind the community of the **Alert@CSI** system and emergency response procedures. More information can be found online at (<http://www.csi.edu/security/rave-alert.asp>).

#### **Confirming the Existence of a Significant Emergency or Dangerous Situation and Initiating the Emergency Notification System**

Campus Safety and/or other CSI Authorities may become aware of a critical incident or other emergency that potentially affects the health and/or safety of the campus community. Generally, CSI Authorities become aware of these situations when they are reported to the Campus Safety Department or directly to a CSI employee. A College Safety Authority is defined as an "employee that has the knowledge, skills, and abilities necessary to evaluate whether or not a particular event requires an emergency notification and to determine if such a notification would compromise the efforts to contain the emergency. This individual may also determine if a message should be sent

to benefit the health, safety, and well-being of the campus community for situations that do not pose a significant emergency or dangerous situation.”

Once it is confirmed that there is an emergency or dangerous situation posing an immediate threat to the health or safety of some or all members of the campus community, the Campus Safety Department will be made aware of the situation.

CSI will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgement of CSI’s College Authorities, compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency.

Some examples of significant emergencies or dangerous situations are:

- . outbreak of pandemic, meningitis, norovirus, or other serious illness
- . approaching tornado, hurricane, or other extreme weather conditions
- . earthquake
- . gas leak
- . terrorist incident
- . armed intruder
- . bomb threat
- . civil unrest or rioting
- . explosion
- . nearby chemical or hazardous waste spill

### **Emergency Notifications and Procedures Used to Notify the Campus Community**

As mentioned previously, CSI has partnered with Rave Mobile Safety in order to deliver critical information when needed. CSI is committed to ensuring the campus community receives timely, accurate, and useful information in the event of a significant emergency or dangerous situation on campus that poses an immediate threat to the health and safety of campus community members. CSI will immediately notify the campus community upon confirmation of an emergency or dangerous situation via **Rave Alert** which can be received as a text message, a voice message, and/or an email<sup>45</sup>. Other transmission modalities can also be utilized if individuals register their numbers at <http://www.csi.edu/alert> Other forums for notifications include, but are not limited to, voice, RSS, Twitter, Snapchat and Facebook, verbal announcements within buildings, public address systems, fire alarms, and posting to websites.

### **Determining the Appropriate Segment(s) of the Campus Community to Receive an Emergency Notification**

CSI’s Campus Authorities, in conjunction with first responders, will determine the appropriate segments to notify and the appropriate modes to use. Generally, campus community members in the immediate area of the dangerous situation (i.e. the building, adjacent buildings, or

surrounding area) will receive the emergency notification first. Authorities will continually evaluate the situation and assess the need to notify additional segments of the campus population.

### **Determining the Contents of the Emergency Notification**

Speed and accuracy of the information are of utmost importance in issuing emergency notifications. To expedite this process and ensure each message contains essential information, the mass notification system contains pre-scripted templates for the most probable or highest impact emergencies. These messages identify the situation, allow for input of the location, and identify the immediate protective action that should be taken. The individual authorizing the message will select the most appropriate template. In those cases, where there are no predetermined templates in the system, the individual may use the “alert” template to craft a specific message. The goal is to ensure people are aware of the situation and they know the steps to take to stay safe.

### **Procedures for Disseminating Emergency Information to the Larger Community (i.e., Individuals and Organizations Outside Campus Community)**

If CSI activates its Emergency Notification Plan, the appropriate CSI departments will notify the larger community about the situation and steps CSI has taken to address the emergency. CSI’s Public Information Office is primarily responsible for updating notices on Facebook, Twitter, and other social networking platforms, maintaining communications with news outlets, distribution of press releases and/or scheduling press conferences.

### **Enrolling in the College’s Mass Notification System *Alert@CSI***

We encourage employees and students of the campus community to enroll in *Alert@CSI*. All employees and students with an access account and **csi.edu** e-mail are automatically enrolled in the system. They are encouraged to visit the *Alert@CSI* portal at <http://www.csi.edu/security/rave-alert.asp> in order to add additional contact information. Members of the larger community are encouraged to follow us on Twitter, Facebook, Snapchat and/or our website, [www.csi.edu](http://www.csi.edu).

## **ANNUAL FIRE SAFETY REPORT**

College of Southern Idaho publishes this fire safety report as part of its annual *Clery Act* Compliance. This report contains information regarding the fire safety practices and standards for CSI, including statistics concerning the number of fires, the cause of each fire, the number of injuries and deaths related to a fire, and the value of the property damage caused by a fire. This Report is available for review on the CSI Campus Safety Department’s website at <https://www.csi.edu/security/crime-statistics/default.aspx>. A copy may be obtained by making a request to CSI Campus Safety at (208) 732-6605.

## **FIRE SAFETY SYSTEMS IN RESIDENTIAL FACILITIES**

A daily fire log is available for review 24 hours a day on the CSI Campus Safety website or in-person at the McManaman Building, from 8 a.m.–5 p.m., Monday through Friday, excluding weekends and holidays. The fire log includes information about fires that occur in residential facilities, including the nature, date, time, and general location. A fire is defined as any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner. If a fire occurs in a CSI building, community members should immediately notify CSI Campus Safety at (208) 732-6605 or 911. When calling, please provide as much

information as possible about the location, date, time and cause of the fire. CSI Campus Safety will initiate a response, investigate and document the incident.

### **Practice Fire Drills**

Pay attention to fire alarms and participate in practice fire drills on a regular basis. Become familiar with stairway exits - elevators may not function during a fire, or may expose passengers to heat, gas and smoke. New students should discuss how they should respond to emergencies with their resident advisor as soon after they move in. All students must understand what actions they are to take in their hall and where to assemble in a safe zone. If there is a fire drill, you must exit the building and follow the exit strategies as directed by the RA's and RD.

In addition to having working smoke/fire detectors, all halls should have fire extinguishers, and the occupants of the hall should be aware that if there is a fire to leave the building and allow the RA's and RD to use the fire extinguisher if necessary. Fires can grow quickly, so anytime a decision is made to try to fight a fire with a fire extinguisher, it is important to be aware of this possibility and abandon efforts in favor of escape if the fire has grown to a size of several feet or more.

### ***Eagle Hall Dormitory***

CSI takes fire safety seriously and has established fire safety programs for students living in on-campus residence halls.

Eagle Hall Dormitory has a fire alarm system consisting of smoke detectors and pull stations located strategically throughout the facility. A third-party alarm-monitoring firm monitors the system. When an alarm is generated, the alarm monitoring company contacts the Fire Department and CSI's Campus Safety Department. Seventeen fire extinguishers are located throughout the building.

In the event of a fire, remember - time is the biggest enemy and every second counts! Escape plans help you get out of your room, or the building quickly. In less than 30 seconds, a small flame can get completely out of control and turn into a major fire. It only takes minutes for a building to fill with thick, black smoke, or become engulfed in flames. The escape plan for each hall is listed below:

- A Hall - Exit through side door and meet in the back-parking lot.*
- B Hall - Exit through side door and meet in the front-parking lot.*
- C Hall - Exit through main doors and meet in the front-parking lot.*
- D Hall - Exit through side doors and meet in the front-parking lot.*
- E Hall - Exit through side doors and meet at the volleyball pits.*

If your escape route is blocked, immediately take the next closest exit and go to nearest meeting point.

### ***Northview Apartments***

The Northview Apartments do not have a monitored fire alarm system. Each separate apartment has localized smoke detectors (one in each apartment and one in each bedroom). There are approximately 16 fire extinguishers located throughout the facility (at least two per floor). An operating smoke detector is validated with each new rental as is a fresh battery. Thereafter smoke detector testing, operation, and battery replacement is exclusively the responsibility of the apartment resident(s).

***Eagle View Apartments***

The Eagle View Apartments have smoke detectors in each unit which are centrally monitored. The monitoring company responds the Fire Department and CSI Campus Safety in case of an alarm. Fire alarm horns sound in each apartment when activated. Fire sprinklers are installed in each apartment and each of the four building wings have an exterior mounted fire extinguisher.
