COLLEGE OF SOUTHERN IDAHO
COMMUNITY COLLEGE DISTRICT
BOARD OF TRUSTEES MEETING
MAY 28, 1996

CALL TO ORDER: 5:30 p.m. PRESIDING: LeRoy Craig

ATTENDING: Trustees: LeRoy Craig, Dr. Thad Scholes, Dr.
Charles Lehrman and Donna Brizee

College Administration: Gerald Meyerhoeffer, President
John M. Mason, Secretary/Treasurer
Robert Alexander, College Attorney
Dr. Jerry Beck, Vice President of Instruction
Dr. Joan Edwards, Vice President of Planning,
Research and Development
Dr. Michael Glenn, Vocational Dean
Dr. John Martin, Registrar
Ron Shopbell, Director of Continuing Education
Dick Sterling, Physical Plant Director
Jeff Duggan, Assistant to the President
Annette Jenkins, Public Information Director

CSI Staff: Marilyn Blackburn, Louise Flowers, Jim
Woods, JoAnn Shopbell, Kathy Clark

Visitors: Lois Lehrman, Pauline Meyerhoeffer, Judy
Scholes, Dick Brizee, Barbra Beck, Gary Jenkins, Pat
Sterling, Gus Flowers, Earl Faulkner, Jack Allred, Betty
Allred, Dr. Alan Frost, Fran Frost, Cris Clark

Faculty Representatives: Penny Glenn, Alice Anderson

Times News: Liz Wright

Radio: Carol Stevens of KTFI

MINUTES OF April 22, 1996 were approved as written on MOTION
by Dr. Thad Scholes Affirmative vote was unanimous.

TREASURERS REPORT: Acceptance of the Treasurer's report was
approved on MOTION by Dr. Charles Lehrman. Affirmative vote
was unanimous.

BIDS:

1. The Board approved the bid of Microscope Service and
Sales of Boise, Idaho in the amount of \$15,725.00 for twenty
five microscopes on MOTION by Donna Brizee. Affirmative
vote was unanimous.

Funding for this purchase is from budgeted
instructional funds.

CSI Trustees

2. The Board approved the bid of Xerox of Twin Falls, Idaho in the amount of \$1,453.43 per month for the lease/purchase of a Xerox 1090 copy machine on MOTION by Dr. Thad Scholes. Affirmative vote was unanimous.

This purchase will be paid for from inter-departmental charges for copying.

3. The Board approved the low bid of B S & R of Twin Falls, Idaho in the amount of \$2,997.00 for an electric freezer, two eleven quart drop in soup warmers, two five inch lowerators and two six and one half inch lowerators and the low bid of Four Star Company of Boise, Idaho in the amount of \$7,200.20 for a forty eight inch gas range grill, a refrigerated base equipment stand, a gas broiler and two gas french fryers on MOTION by Donna Brizee. Affirmative vote was unanimous.

Funding for this purchase is from the Student Union Fund.

4. The Board approved the low bid of Theisen Motors for the lease/purchase of the eight specified vehicles in the amount of \$269.34 per month per vehicle on MOTION by Dr. Chuck Lehrman. Affirmative vote was unanimous.

Funding for this purchase is from budgeted Maintenance department funds.

5. The music instruments bid will be submitted next month.

PRESIDENT'S REPORT:

1. Ron Shopbell reported on the Continuing Education Department's activities. He stated that four out of five arts on tour activities were sold out. Mr. Shopbell also said that we were hoping to reach our one thousand student target for summer school. He reported that Ruby Petersen was retiring and being replace by Dora Jones. Ruby Petersen was thanked for her work at the College.

2. The President reported that the impact of the One Percent Initiative was being analyzed by the Idaho Board of Education. They are waiting for a fiscal analysis of the initiative by the Division of Financial Management before publicizing the impact.

3. Mike Mason and Jim Woods reported to the Board concerning the condensation problem in the planetarium. A vapor barrier was inadvertently not installed in the

From: Mike Mason

Re: Twenty Five Microscopes

We received only one bid for the specified microscopes. Based upon a review of the bid by Sarah Harris and the Life Sciences and Allied Health Department, I recommend that we accept the bid of Microscope Service and Sales of Boise, Idaho in the amount of \$629.00 per microscope for a total of \$15,725.00.

Funding for this purchase is from budgeted instructional departmental funds.

From: Mike Mason 

Re: High Speed, High Volume Copier

We received only one bid for the specified copy machine. Based upon a review of the bid by Jeff Harmon, I recommend that we accept the bid of Xerox in the amount of \$1,453.43 per month for sixty months for the lease/purchase of a Xerox 1090 copy machine.

The base monthly payment is \$753.43 with a per copy charge of .0066 and a top stop of \$1,453.43. The top stop is reached a 106,000 copies per month. Based upon past performance, we will exceed the 106,000 every month.

This machine will replace the two Xerox 1075 copy machines that we are currently lease/purchasing in the amount of \$2,300 per month. The two 1075's are to be traded in on the new 1090.

Funding for this purchase is from inter-departmental charges for copying services.

Re: Kitchen Equipment Bids

As the attached spread sheet indicates, we received two bids for the specified equipment.

Based upon a review of the bids by Debbie Woodland and Dick Sterling, I recommend that we accept the low bid of B S & R of Twin Falls for items five through eight as indicated on the attached sheet in the amount of \$2,997.00. I also recommend we accept the bid of Four Star Restaurant Supply Company of Boise for items one through four as indicated on the attached spreadsheet in the amount of \$7,200.20. The total expenditure for the eight specified items is \$10,197.20.

Funding for this purchase is from the Student Union Fund.

Re: Vehicle Lease/Purchase Bid

As the attached spread sheet indicates, we received four bids for the specified vehicles.

Based upon the monthly lease payments, the estimated resale value of the vehicles and costs to insure the vehicles, I recommend that we accept the low bid of Theisen Motors of Twin Falls in amount of \$269.34 per vehicle for eight vehicles.

On April 25, 1996, the Board was polled via telephone by Board Chairman Leroy Craig and approved the entering into a lease/purchase agreement with Theisen Motors. The telephone poll was required due to the vendor having to enter into the contract prior to the end of the month of April.

Funding for the vehicles lease payments if from the regular operating budget of the maintenance department.

May 16, 1996

Minutes of 8:30 a.m. May 16, 1996 Meeting at Herrett Center

Present: Bryan Freeman, Jim Woods, Lynn Beck, Rick Greenwald, Dick Sterling, Nick Peterson, Bob Ireland, Mike Mason and John Perez

It was agreed upon to take the following action concerning the vapor barrier problem in the planetarium:

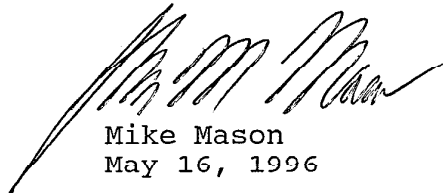

1. The main beams will be fire taped with an adhesive fire taping product during the repair process. The areas where the sheet rock overlaps will not be fire taped.
2. The entire ceiling will have new vapor barrier installed on the inside between the sheet rock and the noise insulation.
3. Nick Peterson will work with Bryan Freeman, John Perez and Lynn Beck to design a scaffolding system to work above the dome. It appears that we will attempt to suspend the scaffold above the dome from part to the structural roof steel. This is still being investigated.
4. There are approximately nine speakers that will be in the way of the scaffolding. They weigh several hundred pounds and must be placed in precise locations. The speakers will have to be taken down and re-installed by Skyscan at an estimated cost of approximately \$7,000.
5. All costs for the removal and re-installation of the speakers will be paid for by the contractor. All material, labor and scaffolding costs will also be paid by the contractor.
6. Skyscan estimates that it will take about three days to remove the speakers and three days to re-install them.
7. We can shut down for two weeks for maintenance between September 1 and September 15th. If we have to allocate three days on each end to install the speakers, this will only leave us eight days to:
 - a. remove projectors and miscellaneous equipment
 - b. seal the dome with one layer of visqueen and one layer of canvas or suitable heavy material
 - c. set up the scaffolding
 - d. remove the sound insulation
 - e. install the vapor barrier
 - f. put the sound insulation back up
 - g. paint the sound insulation.
 - h. remove the scaffolding
 - i. remove the canvas and visqueen

- j. clean the planetarium
- k. re-install projectors and miscellaneous equipment

8. Bryan Freeman will provide the necessary number of people to complete the job in a safe and timely manner. CSI will provide Rick Greenwald and Nick Peterson to assist Skyscan in the removal and installation of the speakers. Ormond will provide Bob Ireland to assist in the project.

9. During the project the entire dome will be sealed along with the ladder to the catwalk. Entry and exit will be through the roof door.

10. On Monday, May 20, 1996 at 8:30 a.m. Nick Peterson will meet with John Perez to further examine the planetarium area and scaffolding ideas. Brian Freeman is considering sending a scaffolding manufacturing representative to the planetarium to see if he can assist.

Gerald R. Meyerhoeffer, President
College of Southern Idaho
P.O. Box 1238
Twin Falls, Idaho 83303-1238

Dear President Meyerhoeffer,

It is a pleasure to submit the enclosed summary of activities at the Herrett Center. The report is for the six-month period, November 16, 1995 through May 16, 1996. The report includes general visitor statistics and special events that have been hosted at the Center, as well as a description of upcoming planetarium shows and art gallery exhibits.

Thank you for the support given to the Herrett Center for Arts and Science. We look forward to a busy summer with an influx of tourists attracted to our campus by the Herrett programs. We are also eagerly anticipating the fall schedule of new and exciting planetarium shows, exhibits and special events.

Sincerely,

James C. Woods, Director

Herrett Center for Arts and Science
SIX-MONTH SUMMARY OF ACTIVITIES
November 16, 1995 through May 16, 1996

The first six months of operations for the new Herrett Center have been very enlightening for the Herrett staff. We are learning how the many features of the new facility and complex equipment can be used as an educational tool to impact student and adult visitors. We would like to acknowledge the design efforts of ZGA Architects for providing us with a facility that has received numerous positive complements from visitors.

This report summarizes a few of the more important statistics that have been compiled during the first six months of operation. You will note a wide geographic range of school groups who participated in Herrett programs. Even though an actual "school show" was not offered this first period, we still enjoyed many visitors from public and private schools in the region. Our visitor statistics are in line with earlier predictions, though we have not had an opportunity to test the summer tourist market. To encourage use by visitors to our area, we solicited and received a \$15,000 Idaho Travel Council grant to secure advertising throughout the southern Idaho region. Signs have been installed on the freeway, and we have advertisements in a wide variety of publications including the AAA Tour Book, Twin Falls Chamber of Commerce Guide to Twin Falls, and the Official Idaho Travel Guide, among others. Many more tourist-oriented adds will appear this summer around the state.

The report includes information on the summer and fall schedule and a list of upcoming shows with a brief description of each forthcoming production. Please note that in response to a heavy demand for holiday shows, we have adjusted our upcoming holiday schedule to include more showings and a special holiday presentation *Season of Light*. New museum exhibits will be coming this next year, dates and titles are provided. The final section of this report summarizes a few minor problems that we have either taken care of or are in the process of resolving.

We are very pleased with the results of the first six months of operation and look forward to an active tourist summer and very busy fall and holiday season. Most importantly, the entire staff of the Herrett Center wishes to thank the CSI Board of Trustees, CSI Foundation, and CSI Administration for three years of support and dedication to soliciting funds to allow construction of the new Herrett Center for Arts and Science.

PREVIEW OF UPCOMING PLANETARIUM SHOWS

Planet Patrol (Begins September 17, 1996)

Meet Sam, Sam Snork, PI, that's "Planetary Investigator". He carries a telescope and works for...The *Planet Patrol*. You and your class can join Sam and his sidekick, Elmo, as they search for the source of a disturbing transmission. It seems to be coming from a small nondescript solar system just a few light years from the planet Nork. As Sam and Elmo investigate this solar system, they learn quite a bit about this system consisting of nine planets, asteroids, comets, and dust. Will they find the source of the transmission? Just what solar system is this? A rollicking good educational time for elementary school students.

Cowboy Astronomer (Begins September 17, 1996)

Howdy pardner. Have you ever looked up into the night sky and felt dumber than a box o' rocks? Not sure what star is up yonder? Can't figure out more than one star pattern - the big dipper? Well, don't you fret. The *Cowboy Astronomer* will help you and your students do some figurin' on this one. He don't use no fancy telescopes, just his eyes. His English may not be up to the school marm's standards, but he will help you find you way 'round the night sky. So if 'yer aiming to learn a few stars and constellations along with some other tidbits 'bout the sky, join the *Cowboy Astronomer* (narrated by Baxter Black).

Season of Light (Begins November 29, 1996, Sponsored by Target Stores)

Winter, the season of cold and darkness, is also the time of year when we festively celebrate the holiday of Christmas. Why is it, that at this rather dreary time of year, we decorate trees and houses with multi-colored lights, place evergreens in our homes, exchange gifts and participate in a host of other interesting traditions? *Season of Light* examines the most festive and holy time of the year, which is celebrated around the time of the winter solstice, when the sun barely climbs into the sky. If you've ever wondered about where all of our traditions have come from, *Season of Light* will enlighten you to the origins of kissing under the mistletoe and other delights. Possible explanations for the Star of Bethlehem are also explored in this truly enlightening program for children of all ages.

The Don E. Crabtree Lecture in Anthropology, (Faulkner Planetarium)
Date undetermined
Stone on Stone: Recent Research at Nakbe, Guatemala (Raymond Gallery)
Date undetermined

A SUMMARY OF ISSUES IN NEED OF EVENTUAL RESOLVE

There is a vapor leak above the dome in the planetarium. A plastic vapor barrier was inadvertently omitted during construction. This is a potentially serious problem but Ormond has proposed a solution that will require a two-week closure in early September.

We have heard comments from visitors that planetarium shows should change more frequently. To help increase the turn-around time on planetarium shows, we were given a full-time Planetarium Production Specialist, Chris Anderson. Addition of this position has already had a significant impact on our production schedule. By the next holiday season, we will be featuring four shows running concurrently through the week.

We have heard comments from visitors who think the planetarium should feature more traditional "star shows" and not shows like *Innerspace* and *Through the Eyes of Hubble*.

We have had numerous requests for "special group rates" for planetarium tickets sold to church groups, scout groups, etc. We are not recommending this because of the logistics of another pricing category (currently have adult (\$4) , senior citizen (\$3), and student (\$2) plus special pricing for school groups (\$1.50).
