

Veterinary Technology Program

Thursday Tour

If you love animals and are looking for a career in veterinary medicine, the Veterinary Technology program may be for you! Experience a day in Vet-Tech with an Immersion Tour! During this half-day activity, you'll spend time with current students, attend classes, meet with program personnel, and observe hands-on labs. Our goal is to provide students with a first-hand look at the exciting things that happen here on campus, and answer questions you have about the program and admissions process. Grab your boots and join us for a day of fun and information!

| <i>Time</i> | <i>Contact/Activity</i> |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 8:15 - 9:00 am | Meet your Vet Tech guide at the Small Animal Clinic Tour the Clinical Facilities. We enjoy showing the new, state-of-the-art facilities! Locations: Small Animal Clinic and Large Animal Facility |
| 9:00- 10:00 am | Attend the Specimen Collection lecture and learn about the diagnostic tests and sampling used in veterinary medicine. Location: Evergreen Building |
| 10:00 – 10:30 am | Meet with Program Directory Jody Rockett DVM or Support Services Specialist Stacy Glauner and learn about the Vet Tech program structure and outcomes; as well as the admissions requirements and process. Location: Evergreen Building |
| 10:30 – 11:30 am | Meet with a General Admissions Coordinator at the CSI Welcome Center to learn more about financial aid, housing, and campus life. Location: Taylor Building |
| 12:00 pm – 1:00 pm | Enjoy lunch in the CSI Taylor Cafe with a current Vet Tech student or visit one of the local eating establishments not far from campus. Location: Taylor Building |
| 1:00 | Attend Radiology Laboratory. You'll see our "learning by doing" philosophy in action as students learn how to perform common veterinary procedures. Location: Small/ Large Animal Clinic |
