## JUNE & JULY

### Attitude of Gratitude

While it might be difficult to reflect on things to be thankful for during these trying times, at CSI we are reminded frequently of how fortunate we are to have our community and high school partners. Without you, we would not be who we are today. Thank you, students for your dedication to your work and taking care of one another. Thank you teachers for your creative solutions and hours spent in preparation for class. Thank you administration and staff, for your tireless efforts in putting students first this season. Thank you all!

## Early College Corner

### Spring Registration is Around the Corner

CSI's spring registration dates have been bumped up! High school students enrolling in CSI courses for dual credit will be able to begin registering for spring courses on **November 16th**. All high school students must register in [DualEnroll](#) for any CSI course(s) they plan to take. Students who have graduated high school are able to register for spring courses on **November 9th**.

### Don't Forget About FAFSA!

Each student and **one** parent needs to create an **FSA ID** to sign the FAFSA! Please make sure to apply for FREE federal aid using the FAFSA application and have it sent to any schools you are interested in attending.

CSI Student Resources Spotlight

### High School Hub Website

Check out our **High School Hub** website for instructions on registering for dual credit classes, our monthly newsletters, and other important updates for our high school partners. This is a page worth bookmarking!

### December Sneak Peek:

**Holiday Break** is quickly approaching!! Students, finish this year strong and enjoy your time off!
