TIPS FOR GETTING HELP AT THE MATH HELP DESK

✦ Complete as much of your homework before you come to get help and bring your book, calculator and assignment with you to get tutoring.

✦ Tutoring is done on a drop in basis. Coming with specific questions will help the tutor help you most effectively.

✦ Be patient. With drop in tutoring the tutor will help students as they arrive.

✦ The Learning Assistance Center is a great place to study, however the tutor is not there to sit and work through each homework problem.

✦ Tutoring is not a substitute for attending class. Any new material should be taught by your instructor.

✦ Tutors cannot help with take home tests.

✦ Remember a tutor is a student too. They will not have all the answers.

✦ Also check the Learning Assistance Center web site (http://www.csi.edu/ip/adc/lap) for information on how to prepare for exams, test anxiety, and how to get an A in Math.
