

ASNP 5-year Math/Science Prerequisite Waiver

The Associate of Science Nursing Program requires all prerequisite and corequisite math/science courses to be completed within five years of the application deadline. The five-year expiration date can be waived under certain circumstances. A waiver *may* be granted if one of the following conditions are met:

1. Successful completion with a C or better of relevant courses within five years (i.e., pathophysiology or advanced A & P/math classes). Demonstrated by official transcripts.

OR

2. Relevant work experience within the past five years, demonstrated by a current paramedic or LPN license with documented work experience. Work experience documentation requires a letter from a current or previous supervisor. (Relevant work experience does not include CNA, MA)

The ASNP manager and/or Department Chair of Nursing will review and verify all documentation. The decision on whether the coursework or work experience is relevant is at the discretion of the ASNP Manager and/or the Department Chair of Nursing.

Please direct questions to the ASNP Manager.

- I have relevant coursework and have submitted official transcripts.

Course name and number	Date Completed
